

Project: Adams Shakespearean Theatre Replacement

Recipient: Southern Utah University

Location: Cedar City, Utah

Purpose: Funds for this project would be used to help replace the deteriorating Adams Memorial Shakespearean Theatre at Southern Utah University (SUU). This important community facility plays a central role in the Utah Shakespearean Festival which annually brings approximately 120,000 visitors to Cedar City and produces approximately \$25 million in economic benefit to the area. The Theatre is 37 years old and has deteriorated significantly. Funding would assist with building a new theatre on campus and would provide a better venue for the Festival.

Amount: \$500,000
